

The Diminutive BABY GRAND

A Modern Development

Of Far-Reaching Influence On the Home

And Musical Culture of the Age

The diminutive BABY GRAND PIANO that fits into the corner space occupied by an upright

—and that costs less than many uprights

—is a comparatively recent achievement

—the first instrument of this type was created only eight years ago

—today the small BABY GRAND, of the dainty dimensions of 4 feet, 8 inches in length, is succeeding the upright in homes all over the world.

—this is the day of the small BABY GRAND.

A few years ago one thousand dollars was considered the minimum price of a grand piano. The modern development of the miniature BABY GRAND, with the superior qualities of the concert grand retained to an astonishing degree, has now removed the barrier of price and opened to all the incomparable charms of this ideal instrument.

Have You An Upright Or An Old Style Player Piano?

You may exchange it on a liberal basis for a dainty BABY GRAND of the most modern design and improvements. Any of the prominent dealers listed below will be glad to confer with you about it and demonstrate the charms of the instrument to you.

Over Fence. Amateur Ring Titles Will be Decided Soon.

A wild three nights of boxing, scheduled for the Athletic Club May 10, 15 and 21, on which dates the amateur titles of Southern California will be decided. All classes will be accommodated—112, 114, 116, 118, 120, 122, 124, 126, 128, 130 and 132 pounds. All registered amateurs are eligible as well as any regular soldiers and sailors. Those who have not received blanks may procure same by applying to Charles Kappen at the Athletic Club.

Of interest to the 146-pounders is the news that Charles Jenkins, who won the national amateur title at Boston a few weeks back and was scheduled to fight Monday night, will not enter the lists.

Jenkins feels that he has won enough glory for one season and a sportsman enough to give some of the 146-pound division a try. He would have felt timid about entering.

PUT RED IN BLUE SUNDAY.

Pomona's first "blue Sunday" was a "red letter day" for the kiddies, old and young. The two largest theaters threw open their doors for both afternoon and evening performances and invited all to attend free.

This was to have been the first Sunday for the recently enacted Sunday closing law to take effect and the theaters had arranged to give their performances without charging an admission fee. An injunction granted in Los Angeles late Saturday made the new law inoperative, but the theater management did not change the announced plan of free shows. Both houses were filled to overflowing at both performances and it is probable that more persons in Pomona witnessed a picture show yesterday than was ever the case under ordinary circumstances.

was called and both men were taken to the Fullerton Hospital.

AUTO COLLISION.

An automobile driven by A. P. Cormack and having as passengers Mrs. Cormack and their two small daughters, Margaret and Jean, collided with a truck driven by Rex Mercer of 213 West Tenth street, at Bicknell and Third streets, Santa Monica, early yesterday evening.

Mrs. Cormack were thrown from the machine and seriously, but not fatally, injured. They were taken to St. Catherine's Hospital, Santa Monica. The girls were slightly injured and were taken to their home, 169 California avenue, Santa Monica.

Mrs. C. E. Edgar, who was riding with Mercer on the truck was badly cut and bruised and was taken to the hospital. The man escaped injury. Both machines were badly injured by the impact.

THREE HURT.

Intoxicating liquor and a dog were responsible for two auto accidents in which several persons were injured, the records of the Receiving Hospital state.

The first smash occurred at Garland and West Eighth streets when an automobile occupied by two men and two women crashed into a telephone pole. The two men are Fred Ryan, age 35 years, of 1828-B West Fourth street, and Frank I. Ryan, age 28 years, of 926 South Broadway, who was the driver. The Hobson suffered concussion of the brain and a probable skull fracture. Ryan received a four-inch laceration on his left cheek. Miss Lola McKee, age 28 years, of 1326 Maryland street, was thrown from the machine and suffered a fractured left collar bone. Mrs. Wanda Wheatley of 309 Ocean Park avenue, Ocean Park, escaped injury. The Receiving Hospital records state that members of the party had been drinking.

In the second accident, which took place at Pasadena avenue and Avenue 40, no one was seriously injured though the automobile in which four persons were riding, overturned when the owner, Frank M. Dammon of 212 West Fourth street, drove the machine to one side in order to avoid striking a dog. Mr. Dammon received several lacerations of the hands and legs. His wife, Rachel Dammon, suffered first-degree burns on her face and hands when the rear of the car exploded. Their daughter, Miss Louella Dammon, age 14 years, was slightly bruised. Mitchell of 421 South Figueroa street suffered lacerations on the hand when he attempted to lift the machine off the injured persons.

SPEEDER BLAMED.

While driving toward Los Angeles from the harbor, three men were

The injunction was served on the Mayor, Chief of Police and City Attorney of Pomona early yesterday morning and prevented them from making arrests which had been planned. City authorities say that the new law prevents even free shows unless they are given under the auspices of charitable or benevolent organizations, and had arranged to close the doors of the showhouses in the event an attempt was made to open them.

The theaters giving performances belong to the West Coast Theaters, Inc., which obtained the injunction under which the city of Pomona is cited to court on May 4 to show cause why the law is not discriminatory and unconstitutional. The Lyric Theater, under the management of R. N. Taylor, made no attempt to open. The management announced that it will not fight the law.

Injured when their car overturned after being hit by a speeding machine near Gardens. The injured are Joe Severance, 35, of 1036 Bicknell street; Joe Giordani, 38, of 732 Date street, and Frank Barro, 36, of 711 Clara street. According to the story told by the three, they were driving north on the Harbor boulevard at twenty-five miles an hour when a machine going in the opposite direction at a high rate of speed tipped the hub cap of one of their wheels, tearing it from the car. The wheel came off and the car turned turtle. They were treated at the Receiving Hospital.

MAY LOSE SIGHT.

Mrs. Agnes Gallinne, 63 years of age, wife of H. A. Gallinne of Huntington Beach, may lose her eyesight as a result of a collision of the Gallinne machine with another car at the beach city yesterday. The Gallinne machine overturned and Mrs. Gallinne's glasses were smashed, the fragments penetrating her eye. She is in the Santa Ana Hospital.

WOULD GUARD FATHER'S NAME.

(Continued from First Page.)

case. It says: "Your telegram to Robert S. Lockhart referred to me for answer" as his attorney. My client is best with telegram concerning the report put out by Dr. Vance of Chicago and others. He emphatically denies any implication whatever in the death of Marie Vance. She died while he was in the East. He has been in Covington for some time and is here now ready to face any charges which may be preferred against him by the proper authorities. Mr. Lockhart is a successful business man, but not wealthy. He stands ready at any time to meet the sensational rumors circulated about him and to refute charges which he alleges are utterly false.

"R. C. STOKES.

"Attorney for R. S. Lockhart." Efforts by The Times correspondent to see Mr. Lockhart and amplify his attorney's statements met with failure. The Lockhart home, one of the most imposing in Covington, a town of 8000 in the midst of the Allegheny Mountains, was closed. Friends of Mr. Lockhart said they did not know where he was.

Conserving Words.

"Good Morning Judge," chirped the genial speaker as he stepped before Judge Hackett and said, "How are you this morning?" "Fine—fine," said the judge.—(Boston Transcript.)

Annual MAY LINEN Sale

"for the June Bride"

Coulter Dry Goods Co.

Seventh Street at Olive

Coulter's is the oldest dry goods store in Los Angeles; and the third oldest dry goods store on the Pacific Coast, and this establishment is noted as selling "Only the Best in Dry Goods Since 1878."

Making a Bridal Gown in the New and Appropriate Mode—

To the June Bride-to-be, now delightfully absorbed in the planning of her trousseau we call attention to the merchandise in this Store especially adapted to bridal needs.

Always first—the Wedding Dress—for which are on display the creamy Satins, crisp Taffetas, dainty Laces and Tulle to make into the most ravishing or practical of gowns.

And here the question of style becomes all-important, for should not a Wedding Gown, above all, be set apart for its charm and loveliness?

The McCall Book of Fashions for Summer offers many beautiful styles for Wedding Dresses—so that the handiwork of creations may be copied at home.

Other delightful suggestions for the Trousseau in the McCall Book of Fashions, 25c

(Second Floor)

A bride may well make her Wedding Gown herself (and have all the more delightful things for her trousseau) for McCall's New "Printed" Patterns offer a way of transforming these clever fashions into stylish creations with the utmost ease!

This New Pattern—which makes sewing so very much easier—has all instructions printed on each part, so that putting a Frock together really becomes a joy—and more than that—a complete success!

Is There Not Something Else You Want to Do on Mondays Besides WASH CLOTHES?

The housewife's time is just as precious as her husband's. His business would suffer a serious set-back if he didn't have his typewriter and had to write all business letters in longhand. The business of housekeeping suffers when all day Monday must be devoted to washing clothes just because of lack of proper equipment. There is not a modern home in America that can afford to be without an electric washing machine. In an hour or so, the washing's done and on the line—AND YOUR TIME IS YOUR OWN—to do with as you please!

You want to do something else on Mondays besides wash clothes, so do not put off the selecting of that electric washer another single day!

YOUR CHOICE of an Electric Washer IS HERE

Among the many different makes of machines we carry are:

The White Lily
The Thor
The Eden
The Butterfly
The Western Electric
The Woodrow Washer
The Easy Vacuum

Any of these may be purchased on convenient monthly terms.

The Easy Vacuum Washer

(shown in sketch) differs radically from other washers because it operates on the vacuum or suction principle. The solid copper tub has a capacity for ten sheets and has a removable one-piece cover. It costs about one cent per hour to operate this machine. See it demonstrated.

Mrs. WILLIMAN TESTIFIES

Declares Lydia E. Pinkham's Vegetable Compound to Be the Best Medicine for Girls and Women

Hamilton, Ohio.—"I had such awful pains in my back I could hardly stand on my feet and I was never without a headache. If I walked up town I thought I would drop and many a time I felt as if I had to go to bed and I was not able to do much of my housework. I would have hemorrhages every two weeks and dragging down pains. I had been feeling badly for three years and had two of the best doctors in the city, but I kept getting worse and only needed 150 pills. I saw your advertisement and I took eight boxes of Lydia E. Pinkham's Vegetable Compound. I feel like a new woman and my liver pills and medicine and your Liver Pills and medicine improved me right away. Now I weigh 135 pounds and feel fine. Everybody tells me how well I look and asks me what I took and I always say, 'Lydia E. Pinkham's Vegetable Compound, the best medicine in the world for any sickness to which girls and women are subject.' I will always have a good word for your medicine."—Mrs. JOSEPH WILLIMAN, 722 South 9th Street, Hamilton, Ohio.

ASPIRIN

Name "Bayer" on Genuine

Take Aspirin only as told in each package of genuine Bayer Tablets of Aspirin. Then you will be following the directions and dosage worked out by physicians during 21 years, and proved safe by millions. Take no chances with substitutes. If you see the Bayer Cross on tablets, you can take them without fear. For Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Aspirin is the trademark of Bayer Manufacturing of Monrovia, California, and of Salicylic Acid.—[Advertisement]

REGISTER FOR CITY ELECTIONS.

Voters at Pasadena to Pass on School Questions.

Who is Who in City Offices Agitates Crown City.

Decide to Make Horse Show Annual Event.

(LOCAL CORRESPONDENCE)

PASADENA, May 2.—Voters of Pasadena will register tomorrow and Thursday for the school elections in June. Two elections will be held, the election of three members of the Board of Education on June 3 and a special election on June 7.

The board members whose terms expire this year are Mrs. Beatrice Dams, president of the board; Mrs. Clara Odell and George W. Woolley. None has announced yet whether they will be candidates for re-election nor have any other candidates entered the field yet.

CITY HEADS WAITING.

Department heads and other employees of the city are anxiously awaiting developments of the coming week when the City Board of Directors and its appointees, as City Manager, C. W. Kolmer, take office, upon the succession of the City Manager form to the City Commission style of government. It is believed that for the most part City Manager Kolmer will retain the present personnel. There is considerable gossip, however, about the positions of City Clerk and Chief of Police. The City Manager and Board of Directors jointly will have the appointment of the new Directorate and are endeavoring to have him supplied by one of their number. As to Chief of Police, one of the last acts of the old City Commission was to appoint Allan Martin, formerly of Chicago, to the position about a week ago. Citizens are wondering if he will be retained by City Manager Kolmer.

HORSE SHOW PERMANENT.

Beginning Tuesday, May festival will be held during the next two weeks at all the Pasadena elementary schools. This series will begin with the Madison on Tuesday. The festival will be under general auspices of the physical education department of the grade schools. The individual festivals take the place of the massed festivals of all the schools held in previous years. The local schools have grown in enrollment to such an extent that the school population has become too unwieldy for the massed program to be carried out easily.

Better see the fine jades, ambers, crystals and other oriental beads, pendants, rings, diams, necklaces, earrings, pins, bracelets and unmounted stones at Grace Nicholson's Famous Pasadena Shop, because you have a better selection at lower prices, and there are a dozen other rooms filled with oriental things that are of intense interest to collectors and gift seekers.—[Advertisement]

BUYS CITRUS RANCH.

Los Angeles Man Takes Over Valuable Orchard.

(LOCAL CORRESPONDENCE)

MONROVIA, May 1.—W. D. Woolwine, Los Angeles banker, and brother of Dist. Atty. Thomas Lee Woolwine, has purchased an eight-acre citrus ranch in the Duarte section, a mile east of Monrovia, at a consideration of \$55,000. The property, known as the Streeter ranch, is one of the very fine groves in this district and is well improved with houses, outbuildings, machinery, etc. The trees, about half navel and half Valencia, are in full bearing. Several very fine oak trees give additional value to the place. The new owner is planning to remodel the ranch house at an expense of \$10,000 and will make it a model country home.

JUDGE ASSESSES

BIG SUM IN FINES.

(LOCAL CORRESPONDENCE)

RIVERIDE, May 1.—Including sentences passed yesterday calling for fines amounting to \$12,000, a total of \$42,000 in fines for bootlegging were imposed before Judge Craig finished his case of seven men brought before him as the result of yesterday's raid, conducted by Sheriff F. P. Wilson, and Dist. Atty. Loyal C. Kelley. Of the total amount of fines, only \$700 was suspended.

The prisoners are Elmer Clapp of Corona, whose wife was found attending the fire under three balloons; John Bagshaw and John C. Middleworth, also of Corona; W. W. Fowler and Frank S. Waters of Elsinore; Al Anderson of Elsinore Junction and Alfonso Valhelli of Perris.

PATRIOTIC POMONA.

Americanization Theme of May-Day Celebration.

(EXCLUSIVE DISPATCH)

POMONA, May 1.—With the schools closed and business suspended, Pomona will observe "American Day" with a big celebration tomorrow. More than 10,000 residents of Pomona Valley are expected to throng Ganesha Park during the afternoon, where the principal exercises will be given by the students. The Municipal Band will play in the business section for an hour during the morning and will also give a concert on the picnic grounds at Ganesha Park during the dinner hour.

Children of the Pomona schools will assemble at 1 o'clock and march in a body to the Greek Theater, where a Maypole dance and other exercises will be given by the students. The American Legion Chorus and community singers will render selections. The principal address will be delivered by Judge Rex B. Goodfield of San Bernardino on "Americanism." The day's program will end in a championship baseball game between the Gary and Kaufman Intermediate School teams.

The gathering has been called by Mayor Thomas H. Ovington to express the true American patriotism of the people of the Pomona Valley and to act as a warning and deterrent against the Red Bolsheviks, I. W. W. and others, who have hitherto used May Day on which to make their lawless demonstrations and vent their propaganda against all organized law and government.

BIG BOND ISSUE.

Voters at Long Beach to Vote on Securities Totalling \$1,000,000.

(EXCLUSIVE DISPATCH)

LONG BEACH, May 1.—Voters of this city will be called upon to pass on a school bond issue of \$1,000,000 on June 3. Members of the Board of Education today passed resolutions calling for an election for that sum, the largest in the history of the school district. Of this sum, \$1,485,000 is for elementary schools and \$422,000 for the High School. \$600,000 in the elementary issue will be used for the establishment of junior high schools. The High School is to have, if the election carries, a new building to cost \$200,000. There are to be two new gymnasiums, a cost \$100,000 each, and additional land for high school purposes is to cost \$15,000. Eight schools are to have either additions or new units. Land is to be purchased for six new school sites.

DON'T FORGET GIFTS.

Local Red Cross Would Do Part in Clothing Europe's Needs.

(LOCAL CORRESPONDENCE)

Don't forget your gifts of clothes to the Red Cross when you start downtown today. All along the downtown sidewalks there will be clothes baskets set out to receive your gifts, and Los Angeles must raise 11,000 jackets and 15,000 other garments for children to do her share in clothing the half naked little folks of Central Europe, according to officials of the local Red Cross chapter. If you can't drop your bundle in one of the Red Cross baskets, you are asked to send it to Red Cross headquarters, 231 Coulter Building.

back with a heavy sigh. When the nurse reached his side he was dead. With him in his last hours were his two daughters and a sister, Mrs. S. E. Raymond of Chicago. The daughters, Mrs. Marian Beveridge Campbell and Mrs. Clair E. Brunson, reside in Hollywood.

Mr. Beveridge belonged to the Masons, the Knights Templar, the Knights of Pythias, the Elks and the Los Angeles Country Club.

FOR BRITISH SOLDIERS.

(LOCAL CORRESPONDENCE)

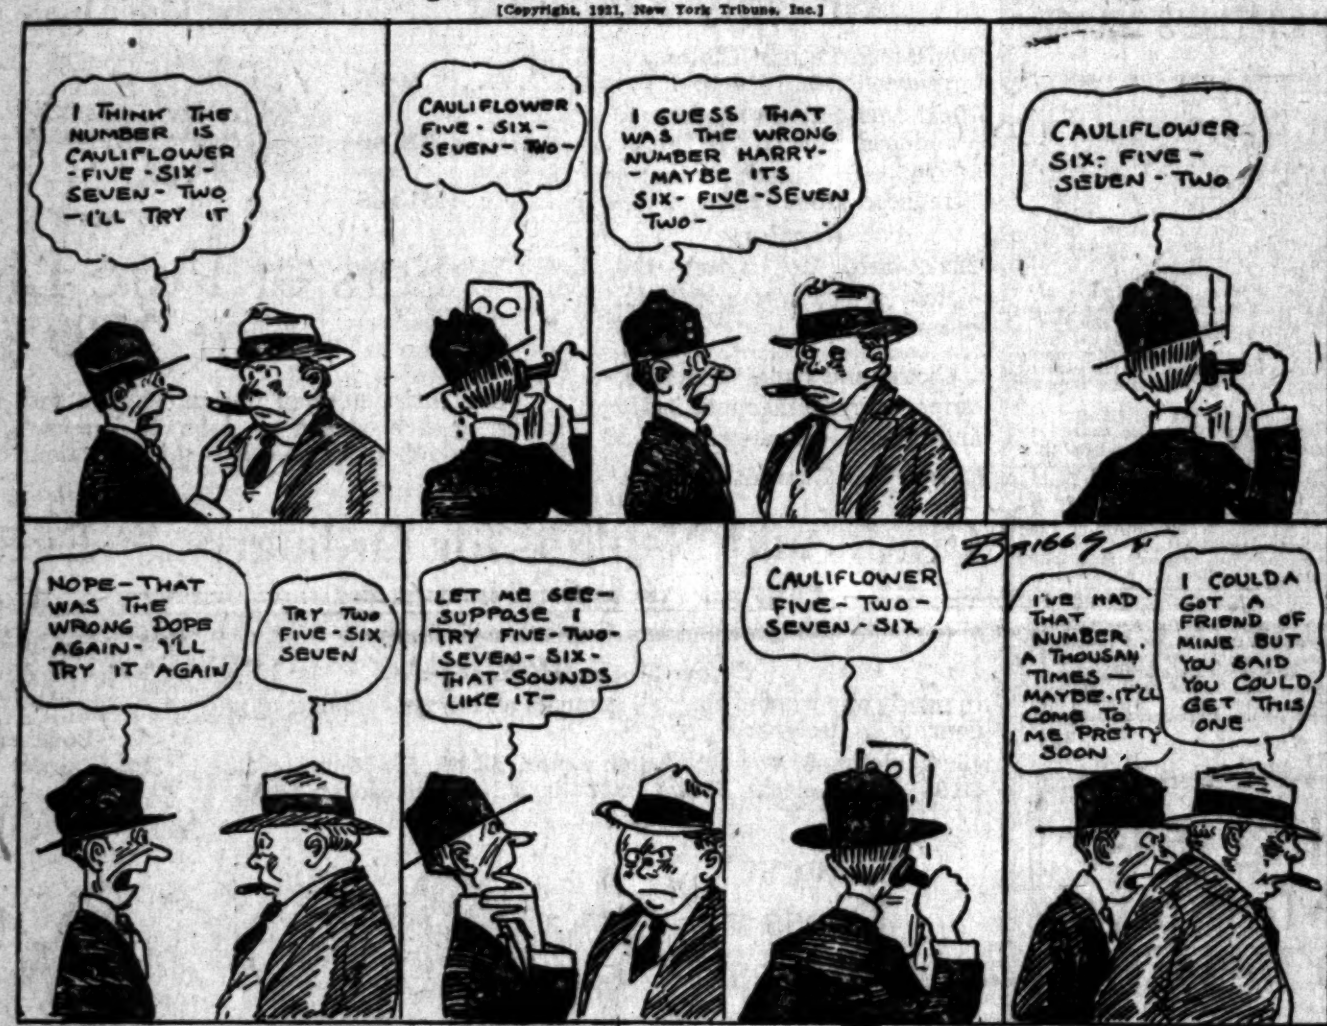

GLENDALE, May 1.—A garden party was held this afternoon at the home of Mr. and Mrs. W. Lindsay, 143 Wabasso Way, Verdugo Woodlands, the affair was under the auspices of the Queen Alexander Chapter of the Daughters of the British Empire. Mr. and Mrs. Jack Gardner, Mrs. Gardner is Louise Dresser, took part in the program. Other Glendale residents taking part on the program were Mrs. Harman Lee, Mrs. Calvin Whitting and Malcolm Macdura. The proceeds of the party will be used for the benefit of the disabled British soldiers in Los Angeles.

RE-ELECT PRESIDENT.

(LOCAL CORRESPONDENCE)

YUCAIPA, May 1.—The Chamber of Commerce at the meeting held last night elected C. H. Smith, the president for another year. The board elected consisted of P. E. Harbrow, R. G. Gill, J. L. Messinger, E. Carter and Mr. Smith. At the meeting the need of proper cold storage for Yucapian fruit was discussed. Plans were told for getting the cold-storage plant in Redlands that is needed. It was reported that the apple crop will be the largest in history.

BUILDING RECORD.

Permits for April Total More Than \$1,500,000.

(EXCLUSIVE DISPATCH)

LONG BEACH, May 1.—This city hung up a brand-new building record last month, when the permits for April passed the \$1,500,000 mark. For a municipality of this size the sum is regarded as hardly short of phenomenal. It is greater than for the entire year of either 1918, 1917 or 1916, and is greater than the building investments combined of any two years of the first five years after the building office was established. The statistics are demonstrative of the activity with which Long Beach construction has progressed recently and notably in the past two months. A new record was set in March, when a total of \$953,499 was invested in Long Beach structural growth. That figure has been exceeded by \$546,501 something less than \$200,000.

No Roads in Newfoundlands.

(LOCAL CORRESPONDENCE)

The ancient British colony of Newfoundland is said to be almost entirely devoid of roads as most of the inhabitants live along the coast and few of them have possessions into the interior. Some capitalists have already bought a great deal of the land in the interior, which offers possibilities for the establishment of paper and pulp mills and the first step toward the building of a system of roads over a part of the island. There is a great amount of water power which can be made use of with the difficulty.—[Indianapolis News]

Everything You Need

for the day's work or play is in the whole wheat. A loaf of whole-wheat flour bread is coarse and indigestible—only the crust is cooked. In making

Shredded Wheat

we don't use flour—we use the whole wheat grains and we make them digestible by steam-cooking, shredding and baking in the cleanest food factory in the world.

Two biscuits with milk make a nourishing meal at a cost of a few cents. Delicious with berries or other fruits.

TRISCUIT is the shredded wheat cracker, a real whole-wheat toast, eaten with butter or soft cheese.

SHOWS HARBOR'S GROWTH
AS COTTON EXPORT HUB.

Bank's Expert Writes on Advantageous
Situation; Declares Traffic Will
Advance Port's Position.

The production of cotton in the Southwest has developed to such a magnitude, says a report of the research department of the National Bank of Los Angeles, that the port of Los Angeles is now the largest cotton export hub in the world. The bank's report, issued Saturday, states that the production of cotton in the Southwest in 1920 was 10,000,000 bales, and in 1921 it is estimated to be 12,000,000 bales. The report also states that the production of cotton in the Southwest is expected to continue to increase in the future.

Imperial Valley, both the American and Mexican parts. The rate to San Pedro is 60 cents per hundred, which is the same as shipment to San Diego by way of the San Diego and Arizona Railroad. This rate covers all Imperial Valley points.

Both Bakersfield and Fresno ship San Joaquin Valley cotton. The rate from Bakersfield to San Pedro is 60 cents; from Fresno, 61 1/2 cents. If shipments are made to San Francisco the above rates are reversed.

MUNICIPAL COMPRESS.

Los Angeles Harbor has a municipal compress which has been in use for a little more than a year. It is anticipated that it will be in operation continuously during 1921, especially since the compress at Calexico was recently burned. The maximum rate has been 200 bales in three hours, or one bale every forty-five seconds. This speed cannot be continued for long periods and some difficulty has been experienced in the past, but it is believed to have been overcome. This compress is the only one of high density in the West.

The charge to compress, including handling from car, truck or storage, compressing and handling into storage or onto wharf, car, truck, Pier No. 1, outer harbor, is \$1 per bale. If there are less than 100 bales, the charge is 15 cents per bale. A charge of 15 cents is made per ton. Tare furnished by the owner are attached for 5 cents per bale. Inspection charge is 4 cents. Weight sheets are furnished by a licensed weigher for 15 cents per bale. Picking damaged cotton costs 3 cents per pound. Handling from storage to car, truck or wharf, Pier No. 1, outer harbor, is charged at the rate of 25 cents per bale.

At the above quoted rates cotton in good condition can be handled from train to compressor to ship direct or storage for \$1.40 per bale. Cotton in poor condition, damaged, will run the cost up to \$4.50.

If the cotton after compression goes into storage it must stand storage costs of 15 cents per bale per month. If the cotton is in the flat-bale form the charge is 15 cents. The high-density compressed cotton pays only 10 cents per month storage. A charge of 25 cents per bale is made for handling from storage to car, truck or wharf, Pier No. 1, outer harbor.

PORT CHARGES IN DETAIL.

In considering the cotton situation in reference to Los Angeles Harbor, the matter of port charges is worthy of detailed report.

A ship, having a licensed pilot for Los Angeles Harbor, is charged no pilotage fee. If such is not the case the charge is \$1 per foot draft, and 1 cent per net registered ton, which is the rate of charge for both inward bound and outward bound vessels.

During the last quarter of 1920 the cost of stevedoring averaged 60 cents a ton, which was at the labor rate of 50 cents per hour plus 10 per cent. During the same period the handling on dock costs about 40 cents per ton, which was at the labor rate of 30 cents per hour plus 10 per cent. The cost of loading or unloading cars averaged 45 cents per ton.

Dockage rates at municipal wharves follows: Under ten tons, exempt; 10 to 50 tons, 2 cents per ton; 50 to 100 tons, 3 cents per ton; 100 to 150 tons, 4 cents per ton; 150 to 200 tons, 5 cents per ton; 200 to 250 tons, 6 cents per ton; 250 to 300 tons, 7 cents per ton; 300 to 350 tons, 8 cents per ton; 350 to 400 tons, 9 cents per ton; 400 to 450 tons, 10 cents per ton; 450 to 500 tons, 11 cents per ton; 500 to 550 tons, 12 cents per ton; 550 to 600 tons, 13 cents per ton; 600 to 650 tons, 14 cents per ton; 650 to 700 tons, 15 cents per ton; 700 to 750 tons, 16 cents per ton; 750 to 800 tons, 17 cents per ton; 800 to 850 tons, 18 cents per ton; 850 to 900 tons, 19 cents per ton; 900 to 950 tons, 20 cents per ton; 950 to 1000 tons, 21 cents per ton. These rates are charged for twenty-four hours

There's a Reason Why
Grape-Nuts

makes a helpful breakfast and a profitable lunch for the worker who must be awake and alert during the day.

Grape-Nuts is the perfected goodness of wheat and malted barley, and is exceptionally rich in nourishment.

It feeds body and brain without tax upon the digestion.

"There's a Reason"

and proportionate amounts for fractions thereof.

Wharfage charge for cotton is 5 cents per ton. Storage commences to run after forty-eight hours at the rate of 10 cents per ton per month on all inbound freight. Outbound cargo wharfage runs for thirty days on foreign-bound freight, and ten days on coastwise.

The water charge is 10 cents per 100 cubic feet for the first 10,000 cubic feet, 5 cents for next 10,000 cubic feet and 5 cents per 100 cubic feet for everything over 20,000 cubic feet.

Of the points of export for this trade, Los Angeles appears to be the most advantageously situated. During 1919 the total amount of cotton that went through Los Angeles Harbor, was almost negligible owing to the fact that the cotton compress was not in operation until the latter

quarter of 1921. It will be noted that Japan took two-thirds of the 1921 cotton.

USES LOS ANGELES HARBOR.

It is a surprising fact that of the amounts of cotton purchased by that country during these three years none was exported through Los Angeles Harbor. Japan, on the other hand, has steadily increased her shipments through San Pedro.

It may be stated that the consuming capacity of China for this commodity has never been strained and in spite of the great amount of cotton she grows her demands have never been overtaxed.

The Philippines Islands have steadily increased their purchases of raw cotton from this country. In 1918 they imported from the United States 600 bales; in 1919 this had grown to 1341; in 1920 to 2100 bales. In an argument at one of the gambling places there.

SURE TO INCREASE.

Los Angeles Harbor as an export port for cotton is destined to increase its importance to a great extent. In 1920 the only two countries to import cotton from the United States were Japan, 600 bales. The first three months of 1921 show that 2000 bales have been sent to Japan and 4000 bales to England; the total amounts being, respectively, 13,608 bales and 15,000 bales for the first

part of that year and the facilities in the way of storage were not of the best. But in 1920 Japan obtained some 600 bales through this port. That this growth is permanent can well be accepted if this record and that of the first three months of 1921 are taken as an index. The first three months of 1921 show an increase over 1920 of some 1340 bales; some 8000 bales going to Japan up to April 1.

SUCCEEDS HIM, ONLY TO LAND IN JAIL.

KEEP JACKIES OUT OF MEXICAN TOWN.

(EXCLUSIVE DISPATCH.)

SAN DIEGO, May 1.—Navy men were not allowed to cross the border at Tijuana today by an order issued by Rear-Admiral Roger Walcott, Eleventh Naval District commander. A guard was ordered to the border by the admiral to enforce the regulation, which was made because of the shooting of William Bell, a chief petty officer, at the Mexican border town Friday night. Bell is not seriously injured. He was shot by a Mexican in Old Town Tijuana. In an argument at one of the gambling places there.

Anton Sokolich, 29 years of age, who was recently appointed secretary of the International Fishermen's Union at the harbor, was arrested last night on a charge of violating the Criminal Syndicalism Act.

Sokolich had a large quantity of radical literature in his possession when arrested by Detective Smith and Sgt. Green. He succeeded Emil Engdall as secretary of the union here after the latter's arrest on a criminal-syndicalism charge a week ago.

HERE TO DIRECT BENEFIT.

What, it is asserted, will be the most stupendous outdoor spectacle and benefit ever staged in America will be given at the Los Angeles Coliseum on the afternoon and evening of June 4 for the Actors' Fund of America, according to Daniel Frohman, treasurer of the fund, who arrived yesterday to take personal charge of the preparations.

"It will be the greatest assemblage of talent in both branches of the acting profession in its entire history," said Mr. Frohman. "It will literally be a galaxy of stars. In addition, the entertainment will include races of all kinds, sports, side shows, carnival features, a pageant and the filming of several scenes for the benefit of the public, with noted actors in the different roles."

"In New York, slightly over a year ago, leading business men and women prominent in social affairs came to me and said that the actors had done their part so generously during the war and in all times of crises that they wished to show their appreciation of the profession in some substantial manner. I suggested that the best way would be to help raise a large fund with which to carry for the poor, needy and aged members of the acting profession in all parts of America."

"The result was that the people of New York got behind the movement so splendidly that more than \$100,000 was raised for the fund. However, a great deal more is needed."

CHRIST'S POWER NOW AVAILABLE.

Healing to Mental Process,
Declares Lecturer.

Not the Drug, but the Faith
That Works, He Says.

Asserts God is Mind and Man
is His Idea.

Dr. Walton Hubbard, C.B.R., member of the board of lecturers of the Mother Church, the First Church of Christ, Scientist, in Boston, delivered a lecture on Christian Science, Friday evening. Dr. Hubbard prior to becoming interested in Christian Science had for several years been engaged in the practice of medicine.

He spoke in part as follows: "The explanation of God's law and its availability to all mankind were taught and demonstrated by Jesus the Christ, but for many centuries it has been maintained that the major portion of the reward for Christian living is to come at some future time. Christian Science furnishes the rule by which the power that Jesus used in accomplishing his wondrous works is made immediately available, and because its beneficent power can make over and bless every phase of our material existence it can come to our consideration."

The wisdom of this world has failed not only to heal from disease, and sin but to heal from disease. And it will continue to fail in its treatment of disease until it is recognized that sickness is sick thought expressed on the body, and that sick thought is cast out through spiritual understanding.

MATERIAL METHODS. Anyone who goes back into the history of material medicine is impressed by the fact that for practically every diseased condition there has been a continual succession of drugs, one following the other; and it is always claimed for the last one with the greatest enthusiasm and positiveness that it certainly does heal the disease. In support of this contention there may be offered the records of many cases that have been cured. Human thought is not much given to retrospection along this line. If it were it would remember that all the ailments that have followed each other in the treatment of disease, and have been successively discarded, have had the same glowing record when they were first used.

The reason for this is that it is not the drug, but the belief in it which accomplishes the healing. Those who discover that a remedy is strong in their belief that it will cure, because the remedy is the outcome of a definite conviction as to how the disease should be treated, so they obtain marked results, while those who prescribe the same drug later on have no such deep conviction, and because of their previous experience may be even mildly skeptical. This state of thought brings about failure.

Now the history of every material method including surgery is the same as that of drugs. The results which come are according to the belief which is entertained about them. One has only to glance through the medical journals to see that physicians themselves are condemning many of the operations and methods which the world at large has been taught to believe would heal them. Almost every one can recall operations and methods, which were once regarded as the greatest blessing that can come to both the doctor and the world is to learn why it is that no material method is of permanent avail and that it is God, who not only "forgiveth all things iniquities," but "who healeth all thy diseases."

MRS. EDDY. It is essential in understanding the study of Christian Science that one should know something of the one to whom it was revealed, and some of the factors which led to its discovery. The revelation came to Mrs. Eddy because the particular qualities of thought which she possessed made it inevitable. She investigated every material system of healing and finally decided that all causation must be mental, yet it required twenty years of effort before she really understood that all causation was mind, God, and a number of years more before it had unfolded sufficient clarity to be given to the world. So Christian Science came as a result of patient, unflinching effort to know God's law, and to the one who possessed the qualities of thought, which made its revelation humanly possible.

COMMON EXPERIENCE. It is the common experience of those who study Christian Science that there comes to them a much larger, clearer understanding of God than they had before.

The only way to be rid of disease is to stop it at its source. The beliefs from which it proceeded must be replaced by spiritual understanding. The reasoning of Christian Science brings divine love close to human experience. The recognition that God is mind and that man in His perfect idea is the basis for Christian Science healing. When we measure our thoughts by this divine standard and undertake as far as possible to entertain only that thought which we know to be of God, the thought which has made us sick or unhappy is eliminated.

MAY DAY FETES ATTRACT MANY.

HUGHES ON QUIB WITH A

(BY A. P. NIGHT WIRE.)
WASHINGTON, May 2.—Representative Hughes today charged that

Mr. Gov. Calvin Coolidge, now President, and former Speaker of the House, was responsible for the passage of the Cambridge subway bill in 1918.

COOLIDGE IS UNDER FIRE

Act as Governor
Attacked.

Urged Passage of Subway Bill
Charge Made by Bay State Legislator.

(BY A. P. NIGHT WIRE.)
BOSTON, May 2.—Representative A. B. Rice today charged that Mr. Gov. Calvin Coolidge, now President, and former Speaker of the House, was responsible for the passage of the Cambridge subway bill in 1918.

In a statement made before the joint legislative committee investigating alleged irregularities of 1918 and 1919 legislative sessions, Rice said Gov. Coolidge called upon the legislature to pass the bill to the effect of changing their office from the State House to the new building at Cambridge subway station in 1918.

He asserted that the Governor had been very little about his move but had conducted in the most hasty manner.

At a caucus of Republican members Mr. Rice continued, Mr. Warner characterized the bill as a "measure" and said that the right wrong they ought to vote for and later punished many House members who had voted against the measure by appointing them to important committees. The caucus added that a few days after the passage of the bill, Mr. Rice called upon the legislature to increase the pay of House members from \$200 to \$250 for the special session, preceding twenty-four hours a rumor of passage of the act was spread.

Former Speaker Warner in statement made before the committee said he was glad to share with Gov. Coolidge the credit for passage of that measure. "I did not believe that the passage of that subway bill was the cause of the transportation problem that we have today," he said.

"The \$200 compensation for members was reported unanimously by the committee on Ways and Means of which Mr. Rice was a member. I believe he or any of his followers were responsible for it as he now suggests."

Representative Rice, after saying that the \$250,000 paid by the legislature for the Cambridge subway bill in 1918, "should have been paid by the people of the Commonwealth," said in his opinion, Calvin Coolidge and Joseph Warner (Speaker of the House) were responsible for it.

REDMEN'S ENVOY RULED AGAINST.

Supreme Court Refuses to Let Him Intervene in Red River Oil Case.

(BY A. P. NIGHT WIRE.)
WASHINGTON, May 2.—The Supreme Court refused today to permit John M. Taylor, as representative of the Eastern Emigrant Charities, to intervene in the Red River oil land case. Taylor claimed that large tracts of the territory in dispute were the property of his clients by reason of a 14,000,000-acre grant made by President Van Buren.

coming generation might emulate them."

SHOW HOSEIERY.

(LOCAL CORRESPONDENCE.)
VENICE, May 1.—Hosiery and the ways it should be worn drew 25,000 persons to Venice today. From Windward avenue and Trolleyway to the Ocean Front a crowd which neither bathing-suit parade nor Easter fashion show have equaled, witnessed nearly a hundred girls of Southern California, passing across the bandstand and displaying as they stepped into a gorgeous black automobile the most daring that fashion demands in color and shortness of hose and style in garters. The hosiery show is the first affair of its kind ever presented.

Miriam De Milo, one of the second-prize winners, presented the most amazing things in embroidered hosiery. Silver and colored silks made her fairly sparkle as she advanced before the admiring crowd. Lillian Marshall, a first-prize winner, was unanimously chosen by the Venice police, who were the judges, as one of the best. She was crowned in black and wore the simple style of black hose that is seen every day on Broadway.

The models passed individually across the stage to the music of the Venice band. They afterward marched out together and received their prizes with the crowd cheering.

Prize winners were: First place, Lillian Marshall; first runner-up, Effie Neat; second place, Miriam De Milo; Jean Wright and Maurine Chadwick; third place, Dorothy Caldwell; Edna Humbert and Irene Lentz.

Even the soloist of the affair,

Marguerite Kelly, showed something new in socks. All up and down the front of her stockings ran music notes, with the usual bare

FLOWERS AND ALL.

(LOCAL CORRESPONDENCE.)
OCEAN PARK, May 1.—Scores of Southern California children were transformed into flowers, taffets and butterflies this afternoon at Ocean Park, where the annual May Day festival was held.

The Ocean Front promenade was lined with lovers of children and their pretty May Day observances.

The parade was led by the queen of the May, tiny Audrey Rucker. In her train tripped all the moods of springtime. These were bows of every shade and description, representing California blossoms of the gardens and the wilds.

The parade ended on the Pickering Pleasure Pier, where the May-pole dance took place. On a high platform the rainbow-colored ribbons were braided, according to the good old fashion customs, by the little human fairies.

The children who were awarded prizes for representing flowers were: Rosa, Marjorie Bradshaw, Math-lyna Gevurtz; Lilas, Chrystal Keat; pansies, Grace Schuler; poppies, Frances Rice; butterflies, Betty Ann Baumgartner, Rosemary Ochrale; doll buggies, Mathew Schuler and Betty Bennett; for the best decorated boy vehicles, Horace Landen, Elmer Bourgeois; for boats, representing the rainbow, Leona DeVries, first prize, and Don De Longchamps and Arline Crocker, second prize. Miscellaneous prize winners were Baby Jean, Mary Virginia Ingrie and Winifred Walsh.

The First Thing You Think Of

What Is ORANGE PEKOE Tea?

It has nothing to do with oranges. It is simply an oriental term to denote one of the different gradings of tea. There are three gradings of Orange Pekoe Tea—

Flowery Orange Pekoe	tea of very finest quality
Broken Orange Pekoe	" " " choice
Orange Pekoe	" " " average

The first two are very much superior to ordinary Orange Pekoe. Ridgways (Gold Label) Orange Pekoe Tea is composed only of the Flowery and Broken Orange Pekoes—the finest teas procurable.

FOR TRUE REFRESHMENT
